My Objective:

I am a **UX designer** and **developer** looking to compliment his design and technical skills with knowledge of **big data analytics** and **social psychology** to craft quality user experiences.

Work Experience

Purdue University, West Lafayette, IN

DIA2: *Front-End Web Developer* / Jan 2015 – May 2016

- **Collaborate** with other student assistants to design a web-based, interactive platform for **knowledge mining and visualization**
- **Liaison** between technical and user experience teams
- **Advocate** for simpler user interactions
- **Develop** production-quality features for **usability testing**
- Identify and **fix usability issues**

Purdue University, West Lafayette, IN

Teaching Assistant / Aug 2014 - Dec 2014

- Guide and assist students in a back-end PHP and MySQL class
- Grade students' work

Education Experience

Purdue University, West Lafayette, IN

VSTAR / Aug 2014 - Dec 2014

- **Collaborate** with other students to redesign an online orientation tool for foreign students
- Develop a **persona** and **identify design requirements**
- **Sketch** and create **wireframes**
- Conduct **usability tests** with paper prototypes

Education

Purdue University / May, 2016
